

CLAIMS

1. An entertainment-object station comprising:
an entertainment-object holder;
5 entertainment-object-station substrates, visually associable with the
entertainment-object station, removably mounted to the entertainment-object holder;
and
entertainment objects affixed to the entertainment-object-station substrates.
- 10 2. The entertainment-object station of claim 1 further including a disinfectant for
cleaning entertainment objects.
3. The entertainment-object station of claim 2 further including a disinfectant-
wipe dispenser for dispensing the disinfectant for cleaning entertainment objects.
- 15 4. The entertainment-object station of claim 1 further including a top surface and
support legs.
5. The entertainment-object station of claim 4 wherein the entertainment-object
20 holder comprises one or more nubs on one or more support legs, each nub sized to
pass through a mounting aperture on each entertainment-object-station substrate.
6. The entertainment-object station of claim 1 wherein the entertainment-object
holder comprises a storage bin.
- 25 7. The entertainment-object station of claim 1 wherein the entertainment-object
holder comprises a net.
8. The entertainment-object station of claim 1 wherein the entertainment-object
30 holder comprises a basket.

9. The entertainment-object station of claim 1 wherein the entertainment-object holder comprises a storage rack.

10. The entertainment-object station of claim 1 wherein the entertainment-object holder comprises a fastener selected from the group consisting of hooks, snaps, and hook and loop fasteners.

11. The entertainment-object station of claim 1 wherein entertainment-object-station substrates are visibly associable with the entertainment-object station by shape.

12. The entertainment-object station of claim 1 wherein entertainment-object-station substrates are visibly associable with the entertainment-object station by color.

13. The entertainment-object station of claim 1 wherein entertainment-object-station substrates are visibly associable with the entertainment-object station by surface ornamentation.

14. The entertainment-object station of claim 1 wherein entertainment-object-station substrates include documentation markings.

15. The entertainment-object station of claim 1 wherein entertainment-object-station substrates are constructed from a material selected from the group consisting of wood, polyvinylchloride, ethylene vinyl acetate foam, and plastic.

16. The entertainment-object station of claim 1 wherein entertainment objects are affixed to entertainment-object-station substrates by an adhesive product.

17. A method of entertainment-object management, the method comprising:
providing an entertainment-object holder;
providing entertainment-object-station substrates, visually associable with the entertainment-object station;

providing one or more entertainment objects;
attaching each entertainment object to an entertainment-object substrate;
removably mounting the entertainment-object substrates to the entertainment-object holder; and

5 placing the entertainment-object holder with removably mounted entertainment-object substrates in a location; and

maintaining the entertainment-object holder with removably mounted entertainment-object substrates by

periodically replacing one or more stale entertainment objects,
10 periodically replacing recalled entertainment objects,
periodically replacing broken entertainment objects,
periodically adding new entertainment objects.

18. The method of claim 17 wherein the entertainment-object station further
15 includes a disinfectant for cleaning entertainment objects.

19. The method of claim 17 wherein the entertainment-object station further includes a disinfectant-wipe dispenser for dispensing the disinfectant for cleaning entertainment objects.

20

20. The method of claim 17 wherein the entertainment-object station further includes a top surface and support legs.

21. The method of claim 20 wherein the entertainment-object holder comprises
25 one or more nubs on one or more support legs, each nub sized to pass through a mounting aperture on each entertainment-object-station substrate.

22. The method of claim 17 wherein the entertainment-object holder comprises a storage bin.

30

23. The method of claim 17 wherein the entertainment-object holder comprises a net.

24. The method of claim 17 wherein the entertainment-object holder comprises a basket.

5 25. The method of claim 17 wherein the entertainment-object holder comprises a storage rack.

26. The method of claim 17 wherein the entertainment-object holder comprises a fastener selected from the group consisting of hooks, snaps, and hook and loop
10 fasteners.

27. The method of claim 17 wherein entertainment-object-station substrates are visibly associable with the entertainment-object station by shape.

15 28. The method of claim 17 wherein entertainment-object-station substrates are visibly associable with the entertainment-object station by color.

29. The method of claim 17 wherein entertainment-object-station substrates are visibly associable with the entertainment-object station by surface ornamentation.

20

30. The method of claim 17 wherein entertainment-object-station substrates include documentation markings.

31. The method of claim 17 wherein entertainment-object-station substrates are
25 constructed from a material selected from the group consisting of wood, polyvinylchloride, ethylene vinyl acetate foam, and plastic.

32. The method of claim 17 wherein entertainment objects are affixed to entertainment-object-station substrates by an adhesive product.
